

Self-Wrapping Flat Design

Built on the same design as our Flexo F6 and F6 Woven, FLEXO F6 FLAT (F6Z) is a self-wrappable sleeve used to bundle and protect wire harnesses and cable assemblies in areas where space constraints restrict the use of traditional sleeving. Lightweight and durable, it maintains its flexibility for conforming to irregular shapes and bends during installation.

Woven from monofilament and multifilament polyester yarn, Flexo F6 Flat provides noise suppression and a high level of mechanical abrasion protection making it the perfect choice for use in automotive applications.

The low-profile design is great for channeling and protecting wires that run under the carpet or in the headliner of automobiles.

- **Lightweight**
- **Self-Wrapping**
- **Durable Woven Design**
- **Maintains Wires in Flat Shape**
- **Abrasion Resistant**
- **Low Profile**

F6 Flat is created to form protected wire conduits in tight spaces such as automotive interiors. Running under carpeting and in headliners can be a challenge without the F6 Flat keeping wires organized.

F6 Flat versus Flexo F6

F6 see page 10

Nominal Size	Part #	Width	Standard Spool Put-Ups		Available Colors	Lbs/100'
			Bulk Spool	Shop Spool		
1"	F6Z1.00BK	1.2"	50'	25'	Black (BK)	3.26
